

international journal of polymer science hindawi - cellulose macro and nanofibers have gained increasing attention due to the high strength and stiffness biodegradability and renewability and their production and application in development of composites application of cellulose nanofibers for the development of composites is a relatively new research area cellulose macro and nanofibers can be used as reinforcement in composite materials, **pdms with designer functionalities properties** - in general polymers with a r 2 si o unit are termed silicones while the si o repeat unit is also called siloxane the strength of the si o bond gives the polymer its thermal and chemical stability which is important for its use in high temperature applications 1 2 in pdms the flexibility of the siloxane backbone permits the chains to easily arrange and rearrange themselves so as to place, **comprehensive biotechnology 2nd edition** - the second edition of comprehensive biotechnology continues the tradition of the first inclusive work on this dynamic field with up to date and essential entries on the principles and practice of biotechnology the integration of the latest relevant science and industry practice with fundamental biotechnology concepts is presented with entries from internationally recognized world leaders in, **peer reviewed journal ijera com** - international journal of engineering research and applications ijera is an open access online peer reviewed international journal that publishes research
